**Subject: Issue of Letter of Permission (LoP) in compliance of the decision of 1st Appeal Committee for establishment of new medical college as Kurma Sanskriti Medical College and Hospital, Jehanabad (Bihar) with annual intake of 50 MBBS seats for the A.Y. 2026-27--Reg.**

**Refs:**

- a. Online Application No: NMC/UGN/2026-2027/0021**
- b. Letter of Disapproval (LoD) dated 20-07-2026.**

**Dear Sir/Madam**

WHEREAS, Online Application No. NMC/ UGN/2026-2027/0021 was submitted to the Medical Assessment and Rating Board (MARB), National Medical Commission (NMC), seeking **for establishment of new medical college as Kurma Sanskriti Medical College and Hospital, Jehanabad (Bihar)** with annual intake of 50 MBBS seats for the A.Y. 2026-27.

2. WHEREAS, Section 28(2) of the National Medical Commission Act, 2019 mandates that every applicant shall submit a scheme to the Medical Assessment and Rating Board in such form and containing such particulars as may be prescribed under the relevant regulations. Further, the proviso to Regulation 9 of the Establishment of Medical Institutions, Assessment and Rating Regulations, 2023 provides that an incomplete application, including one not accompanied by the mandatory documents prescribed under the Regulations, is liable to be rejected.

3. WHEREAS, Section 29 of the National Medical Commission Act, 2019 read with Regulation 11 of the Establishment of Medical Institutions, Assessment and Rating Regulations, 2023, requires the Medical Assessment and Rating Board, while considering a scheme under Section 28, to assess, inter alia, the adequacy of financial resources, availability of academic faculty, hospital facilities, infrastructure, and such other prescribed criteria necessary for the proper functioning of the medical college;

4. WHEREAS, the Public Notice dated 22.12.2025 inviting applications for

the Academic Year 2026-27 specifically stipulates that:

*"The regulatory framework does not contemplate a 'work-in-progress' status at the time of application; rather, it obligates readiness and demonstrable compliance ab initio. Therefore, any plea of being in the process of completing infrastructure or requesting additional time defeats the very objective of the scheme under the Act and Regulations and is wholly impermissible."*

5. WHEREAS, the Medical Assessment and Rating Board Expert Committee examined the application, AEBAS data and other relevant records in accordance with the National Medical Commission Act, 2019, the Establishment of Medical Institutions, Assessment and Rating Regulations, 2023, the Undergraduate Medical Education Standards Regulations (UGMSR), 2023 and the Public Notice dated 22.12.2025, and observed the following major deficiencies

| S. No. | Parameter      | Observation of the Expert Committee (based on AEBAS)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1      | Faculty        | <p>i. There is a gross deficiency of eligible faculty, as reflected in the AEBAS records. Although the registered faculty strength is 125, only 8 (Eighteen) faculty members have recorded AEBAS attendance of at least 75%.</p> <p>ii. Except for the Department of Paediatrics, no Professor in any other department has recorded AEBAS attendance of at least 75%, indicating a widespread deficiency of eligible Professors across the institution.</p> <p>iii. According to the assessors' report, there is a 4.3% deficiency in teaching faculty and an 11.7% deficiency in Tutors/Senior Residents/Demonstrators.</p> |
| 2.     | Infrastructure | According to the assessors' report, the college and hospital infrastructure are incomplete and remain in a "work in progress" stage. The internal accessory fittings and finishing works are still in progress, indicating that the institution is not fully established or operational in accordance with the prescribed statutory and regulatory requirements.                                                                                                                                                                                                                                                             |

6. WHEREAS, upon consideration of the findings of the Expert Committee, the Medical Assessment and Rating Board was satisfied, the applicant institution has failed to demonstrate compliance with the mandatory requirements relating to faculty availability, hospital facilities, infrastructure, and other essential requirements for the requested number of seats, prescribed under the National Medical Commission Act, 2019, the Establishment of Medical Institutions, Assessment and Rating Regulations, 2023 and the Undergraduate Medical Education Standards Regulations (UGMSR), 2023. These deficiencies are fundamental in nature and cannot be treated as minor or curable at this stage of the application process, particularly in view of the Public Notice dated 22.12.2025, which expressly stipulates that applications based on incomplete infrastructure, or where the institution is not fully compliant and demonstrably ready and remains a

"work in progress", are not permissible under the applicable regulatory framework.

7. WHEREAS, in exercise of the powers conferred under Section 28 of the National Medical Commission Act, 2019, read with Regulation 13 of the Establishment of Medical Institutions, Assessment and Rating Regulations, 2023, the Medical Assessment and Rating Board (MARB), National Medical Commission, **disapproved Online Application No. NMC/UGN/2026-2027/0021 for establishment of new medical college as Kurma Sanskriti Medical College and Hospital, Jehanabad** with annual intake of 50 MBBS seats for the A.Y. 2026-27.

8. WHEREAS, the college has preferred appeal against the Letter of Disapproval of MARB.

9. WHEREAS, the First Appeal Committee upon consideration of the entire material on record, including the observations of MARB, the infrastructure and clinical material, HIMS data for the period from 01-07-2026 to 31-07-2026, the AEBAS records for the periods 01-04-2026 to 30-06-2026 and 01-07-2026 to 02-08-2026, and the undertakings furnished by the College, observed that there has been improvement in the faculty and infrastructural position., The Committee further notes that the minimum 59 teaching faculty prescribed under the UG-MSR, 2023, for 50 MBBS seats stands complied with by the Appellant, as certified through the Faculty Undertaking and supported by the AEBAS records. Having regard to the totality of the material on record, including the subsequent AEBAS position, HIMS/clinical data, infrastructure and the undertakings furnished by the College, the Committee was of the considered view that the College had not established full compliance to justify permission for the proposed intake of 150 MBBS seats; however, the material placed on record warranted grant of permission for establishment of the new medical college with an annual intake of 50 MBBS seats for the Academic Year 2026-27, subject to compliance with all applicable statutory and regulatory requirements.

10. AND WHEREAS, the First Appeal Committee, decided that the material placed on record establishes substantial compliance with the applicable statutory and regulatory requirements for establishment of new medical college with annual intake of 50 MBBS seats. MARB NMC shall be at liberty to conduct inspections in future in accordance with regulatory norms to oversee compliance with the MSR.

11. AND THEREFORE, in pursuance of decision of the First Appeal Committee dated 17-08-2026 (which has already been communicated to you through email by Policy & Coordination Division of NMC) Medical Assessment and Rating Board (MARB) is hereby conveying you **Letter of Permission (LoP) for establishment of new medical college as "Kurma Sanskriti Medical College and Hospital, Jehanabad (Bihar)" with annual intake of 50 MBBS seats for the A.Y. 2026-27, subject to the following conditions.**

#### **Terms and Conditions**

- i. The approval granted herein shall remain subject to strict compliance with the undertaking furnished by the Medical College and the provisions of the National Medical Commission Act, 2019, the Undergraduate Medical Education Standards Regulations, 2023 and other applicable statutory and regulatory requirements. In the event it is subsequently found that any

statement made in the undertaking or any document furnished by the Medical College is false, misleading or incorrect, or that the medical college has failed to maintain the prescribed standards or comply with the applicable requirements, it shall be open to the Medical Assessment and Rating Board (MARB) to initiate appropriate action, including imposition of penalties or any other action permissible under Section 26 of the National Medical Commission Act, 2019, and the applicable regulations.

- ii. The applicant and the institution shall be solely responsible for ensuring continued compliance with the provisions of the National Medical Commission Act, 2019, the regulations framed thereunder, and all directions, guidelines, advisories, and public notices issued by the National Medical Commission (NMC) from time to time. The institution shall maintain, throughout the academic year, the prescribed standards relating to physical infrastructure, hospital infrastructure, human resources, teaching faculty, clinical material, equipment, and all other statutory requirements.
- iii. If, at any stage, it is found that this Letter of Permission has been obtained on the basis of any false declaration, misrepresentation, suppression of material facts, or submission of fabricated or forged documents, or if such misconduct comes to the notice of the National Medical Commission during a physical or virtual assessment, surprise inspection, or otherwise, MARB shall be at liberty to withdraw, cancel, or revoke this Letter of Permission. In addition, the institution shall be liable for such action as may be permissible under the National Medical Commission Act, 2019, including denial or withdrawal of recognition of the medical qualification and any other action deemed appropriate under law.
- iv. The medical college and its attached teaching hospital shall comply with all applicable statutory requirements, including those relating to building safety, occupancy, fire safety, pollution control, environmental protection, biomedical waste management, radiation safety, and all other approvals, licences, and clearances required under the applicable laws.
- v. Government Medical College shall contribute 15% of MBBS seats and 50% of Postgraduate Broad Speciality (MD/MS) seats to the All India Quota (AIQ) for centralized counselling conducted by the Medical Counselling Committee (MCC), Directorate General of Health Services (DGHS), in accordance with the directions of Hon'ble Supreme Court and the applicable policy of the Government of India.
- vi. The medical college shall develop and maintain an official website containing updated information regarding the institution, including:
  - a. Courses offered and sanctioned intake;
  - b. Teaching faculty and their qualifications and experience;
  - c. Student admissions;
  - d. Affiliating university;
  - e. Hospital services and facilities;

- f. Departmental infrastructure and equipment;
- g. OPD and IPD statistics; and
- h. Birth and death records maintained under the applicable laws.

vii. The institution shall comply with the following additional conditions:

a. MARB reserves the right to withdraw, cancel, or revoke this Letter of Permission if it is found that the permission has been obtained by fraud, misrepresentation, suppression of material facts, or submission of false or fabricated documents.

b. MARB reserves the right to conduct physical and/or virtual assessments, including surprise inspections, at any stage and to take appropriate action based on the findings thereof.

c. The institution shall strictly comply with all the conditions stipulated in this Letter of Permission. MARB shall have the right to call for any information or conduct such enquiry as may be necessary to verify compliance with these conditions in both letter and spirit.

d. MARB may take appropriate regulatory action against the institution for failure to maintain the standards prescribed by the Undergraduate Medical Education Board (UGMEB) or the Postgraduate Medical Education Board (PGMEB), as the case may be, including issuance of warning, imposition of monetary penalty, reduction of intake capacity, stoppage of admissions, or recommendation to the Commission for withdrawal of recognition, in accordance with the National Medical Commission Act, 2019, and the regulations framed thereunder.

e. The institution shall furnish all admission-related information within the timelines prescribed by the National Medical Commission from time to time. Failure to submit such information within the stipulated period shall be treated as non-compliance with the statutory requirements governing admissions and may invite appropriate action under the National Medical Commission Act, 2019.

f. The medical college shall install, maintain, and ensure the continuous functioning of the Aadhaar Enabled Biometric Attendance System (AEBAS), Closed-Circuit Television (CCTV) surveillance system, Hospital Management Information System (HMIS), and such other information technology systems as may be prescribed by the National Medical Commission from time to time. The data generated by these systems shall be made available to the National Medical Commission whenever required.

g. The institution shall rectify all deficiencies, if any, observed during future assessments within the period specified by MARB. Failure to do so may result in the refusal of renewal of permission or initiation of appropriate regulatory action, including withdrawal or revocation of this Letter of Permission, in accordance with the provisions of the National Medical Commission Act, 2019.

12. This Letter of Permission shall not be construed as a waiver of any statutory requirement or obligation under any applicable law. The institution shall obtain and maintain all approvals, licences, certificates, and permissions required under the applicable Central, State, and local laws throughout its operation.

13. The National Medical Commission (NMC) has received Electronic Bank Guarantee (E-BG) No. **6366326EN0B00186 dated 14-08-2026 for Rs 15 Crore valid upto six years.**, towards the establishment of the medical college with an annual intake of 50 MBBS seats, in compliance with the stipulation contained in the Public Notice dated 14.07.2026 regarding the MBBS seat matrix for the Academic Year 2026–27.

14. Kindly acknowledge receipt of this Letter of Permission.
